

# Broad-IP

Broadband from NSSL

## UPDATE

### Super Premium 3Mb/512k

- We are pleased to announce to all our Broad IP users subscribing to NSSL's premium airtime package in the Europe and Middle East beam that as of the 9th of April we have upgraded your package so you can now enjoy an increase of 50% download speeds up to 3Mb, instead of the usual 2Mb at no extra cost!

### Pacific Ocean Region

- Pacific Ocean Region – We now have Broad IP coverage in the Pacific Islands, Western Pacific, North East Asia and South East Pacific.

### Premium Voice

- We launched at the end of 2007 a premium voice service that provides our Standard and Premium Customers with dedicated voice lines – If you wish to trial this service please let our Broad IP team know and we can arrange to send you out a Premium Voice Modem and get you set up for service.
