

FleetBroadband Software Update

Thrane & Thrane have issued a new version of terminal firmware for the FleetBroadband 250 & 500 terminals — **version 1.05**

It is recommended that this upgrade be applied to all FBB 250 & FBB500 terminals as soon as possible to ensure optimal performance if your FleetBroadband terminals.

The new version can be found on our customer ftp site which can be found by clicking on the following link and entering the username and password below:
