

Inmarsat-B to FleetBroadband Migration

FleetBroadband (FBB) brings Inmarsat's broadband service to the high seas; with data rates of up to 432kbps, with simultaneous voice and sms services.

To help customers to upgrade to this new technology, NSSL is pleased to introduce the Inmarsat-B to FBB migration promotion.

€ 750 reward towards a FleetBroadband 250 when replacing an Inmarsat-B terminal

€ 1,500 reward towards a FleetBroadband 500 when replacing an Inmarsat-B terminal

OR

€ 2,500* towards a FleetBroadband 500 when replacing a Nera Saturn Bm.

*In order to be eligible for the € 2,500 premium for replacing Nera Saturn B with SAILOR 500 FleetBroadband the following two parts must be returned: QUFC911931 Transceiver and MM113101 Pedestal Control Unit (PCU).

Offers are valid until 30 April 2009.

**FBB equipment will be invoiced in full and credit notes issued once the Inmarsat-B decommissioning information and/or Inmarsat-B equipment is received by NSSL
