

Thrane & Thrane Explorer 700

Thrane & Thrane Explorer 700

The Thrane & Thrane Explorer 700 is a heavy-duty broadband terminal that brings the entire site of BGAN services to either single or multiple users anywhere in the world.

The terminal has been designed to withstand conditions in the harshest of remote locations and with an antenna that can be remoted up to 70m, this terminal is ideal for mobile or fixed installations.

The terminal can be deployed in minutes, ensuring that remote users can have access to their corporate network and business critical data in just minutes – anywhere, anytime.
