

## Thrane & Thrane Explorer 500

### Thrane & Thrane Explorer 500

The Thrane & Thrane Explorer 500 extends the corporate network by bringing data rates of up to 464kbps/448kbps to individual remote users.

Weighing just 300gms more than the BGAN Class 3 terminal, the Explorer 500 provides not only enhanced standard IP data rates of up to 464kbps/448kbps, it also offers an additional Streaming IP channel of 128kbps and an enhanced 3.1kHz audio capability.

Supporting all operating systems, E-mail, VPN and Thin Client Applications, as well as making business critical applications available over dedicated Streaming IP channels; being out of the office no longer means being out of touch.

## Thrane & Thrane
